CALGARY, Alberta, November 29, 2007 – CLINICARE's Manitoba-based Customer, The Winnipeg Clinic is the recipient of a major prestigious award and is also a substantial contributing factor to why CLINICARE was awarded a national Healthcare IT award:

- **The Canadian Information Productivity Awards (CIPA)
'2007 Organizational Transformation' Gold Award**

On Wednesday November 14, 2007 at the CIPA awards banquet held at the Westin Harbour Castle Conference Centre in Toronto, The Winnipeg Clinic was awarded the 'Gold Award' for Organizational Transformation. This was a national event with 90 finalists from across Canada with a total of 12 Silver and 12 Gold awards for six different for profit/not for profit categories.

- **The Canadian Health Informatics Awards (CHIA)
'2007 Healthcare Transformation of the Year' Award**

On Thursday November 15, 2007 at the CHIA gala held at the Arcadian Court in Toronto, CLINICARE was awarded the '2007 Healthcare Transformation of the Year' Award for the implementation of the CLINICARE Electronic Medical Records solution at The Winnipeg Clinic. This award was established to recognize a for-profit healthcare ICT company/client team that has successfully implemented a health-IT solution at a healthcare organization within the past twelve months. This award acknowledges successful knowledge transfer, innovation, successful achievement of project objectives, leveraging industry best practices which results in substantial adoption and utilization of a health-IT solution.

"We are thrilled that one of our Customers is being recognized in such a public manner for what we both knew to be a well run project implementation of our software solution," offered CLINICARE CEO and president, Dennis Niebergal. "Both of our teams worked diligently to plan and then deliver on the complex undertaking of computerizing the workflow in this large medical group's day-to-day operations. Productivity and patient care both win when this gets done properly."

"This recognition is very pleasing for me and The Winnipeg Clinic team," mentioned Tom Malone, The Winnipeg Clinic chief executive officer. "Our team worked very hard to organize the project and roll out the CLINICARE software in as non-obtrusive a way as possible. We enjoyed strong support from our partner – CLINICARE – and look forward to a long lasting relationship moving forward."
